

Assembly Legislative Record for Water-Related Bills in 2013-2014

LEGEND

0: not present to vote

N/A: legislator was not holding a seat at the time

SB1: This bill changed existing laws to make it easier to mine for iron ore in Wisconsin and opened the door for mining in the Penokee Hills near Lake Superior.

SB183: In essence, this bill will make it easier to weaken local ordinances that protect lake and river shorelands.

SB190: This bill allows the Dept. of Natural Resources to give pollution permits for a watershed. Because pollution comes into rivers from all over, not just from pipes, this new law will improve pollution regulation.
