Position Description
Aquatic Invasive Species Project Manager

The Aquatic Invasive Species Project Manager engages local partners in efforts to monitor and prevent the spread of Aquatic Invasive Species (AIS) in and among rivers, lakes and wetlands.

Essential Professional and Personal Qualifications
- Strong commitment to water conservation and environmental protection
- Strong interpersonal skills and ability to communicate effectively with diverse audiences
- Collaborative approach to working with government and other stakeholders
- Highly organized and detail oriented
- Willingness to attend occasional evening and weekend events
- Valid driver’s license
- Willingness to laugh out loud and have fun!

Core Responsibilities
- Coordinate AIS Snapshot Day with 20 local groups in 150 priority areas across the state
- Oversee outreach campaigns for anglers to educate, build awareness about AIS
- Assist with other training opportunities as needed in priority regions across WI

This position is part-time from April-September 2020 and is based in Madison, WI. Salary is $18/hour, with hours expected to average 20/week. Includes an energetic work environment, and the chance to associate with passionate board members, staff and advocates committed to clean fresh water.
